

## **Call for Associate Editors for the IEEE Transactions on Artificial Intelligence**

**Deadline for applying 3 December 2022**

Each year, the IEEE Transactions on Artificial Intelligence (IEEE TAI) invites new Associate Editors (AEs) to join its editorial board due to completion of the term of some existing AEs, retention of some AEs, or an increased load on existing AEs in some areas of AI.

The journal encourages diversity and people from industry and/or government organisations who possess a strong track record in AI to apply.

Areas of particular interest include: Adversarial Learning, Bayesian Networks, Distributed Artificial Intelligence, Ethics of Artificial Intelligence, Fairness and Accountability of Artificial Intelligence, Human-AI Interaction / Teaming, Hyper and Meta Graphs, Knowledge-based Systems, Knowledge Graphs, Machine Learning for Image Processing, Machine Learning for Video Processing, Mathematical Logic, Multi-armed Bandit, Symbolic and non-Symbolic Knowledge Representation, Symbolic and non-Symbolic Natural Language Processing, Ontology, Probabilistic Reasoning, Reinforcement Learning, Sentiment Analysis, Swarm Robotics, Symbolic Reasoning, Trust in Artificial Intelligence, and Unmanned Systems.

Candidates interested in applying to join IEEE TAI's editorial board must apply by filling the following form: <https://forms.gle/gQwbUGNkyFVRrCTX9>
